ABOUT

Hi, my name is Imran. I'm 24 years old. I'm in the IT field since 2017. It's already three months trying to catch *Front End Development* by myself because of my enthusiasm. During these three months, I've been learning *HTML, CSS, BOOTSTRAP* and *JAVASCRIPT* successfully. I love my job and I try to do my best to be the best guy in the web development field.
